THE REPLY FILED <u>August 2, 2010</u> FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.				
1. The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:				
a) The period for reply expiresmonths from the mailing date of the final rejection.				
b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.  Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO				
MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f). Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).  NOTICE OF APPEAL				
NOTICE OF APPEAL  2. The Notice of Appeal was filed on <u>02 August 2010</u> . A brief in compliance with 37 CFR 41.37 must be filed within two months of the				
date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).  AMENDMENTS				
3. The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will <u>not</u> be entered because				
(a) They raise new issues that would require further consideration and/or search (see NOTE below);				
(b) They raise the issue of new matter (see NOTE below);				
(c) They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or				
(d) They present additional claims without canceling a corresponding number of finally rejected claims.				
NOTE: (See 37 CFR 1.116 and 41.33(a)).				
4. The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).				
5. Applicant's reply has overcome the following rejection(s):				
6. Newly proposed or amended claim(s) would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).				
<ul> <li>7.  For purposes of appeal, the proposed amendment(s): a)  will not be entered, or b)  will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.  The status of the claim(s) is (or will be) as follows: Claim(s) allowed: Claim(s) objected to: Claim(s) rejected: 14 and 20. Claim(s) withdrawn from consideration: 21-23.</li> </ul>				
AFFIDAVIT OR OTHER EVIDENCE

See 37 CFR 1.116(e).				
9. See 37 CFR 41.33(d)(1).				
10. The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

Art Unit 1626				

Continuation of 11. does NOT place the application in condition for allowance because: Applicant's statement did not include the language "at the time this invention was made" or "was subject to a joint research agreement at the time this invention was made".

MPEP 706.02(I)(2), Part I. under "Definition of Common Ownership" states the following:

The requirement for common ownership at the time the claimed invention was made is intended to preclude obtaining ownership of subject matter after the claimed invention was made in order to disqualify that subject matter as prior art against the claimed invention.

The question of whether common ownership exists at the time the claimed invention was made is to be determined on the facts of the particular case in question. Actual ownership of the subject matter and the claimed invention by the same individual(s) or organization(s) or a legal obligation to assign both the subject matter and the claimed invention to the same individual(s) or organization(s)/business entity(ies) must be in existence at the time the claimed invention was made in order for the subject matter to be disqualified as prior art. A moral or unenforceable obligation would not evidence common ownership.

MPEP 706.02(I)(2), Part II. under "Evidence Required to Establish Common Ownership" (reproduced below), gives an example of a proper statement.

For example, an attorney or agent of record receives an Office action for Application X in which all the claims are rejected under 35 U.S.C. 103(a) using Patent A in view of Patent B wherein Patent A is only available as prior art under 35 U.S.C. 102(e), (f), and/or (g). In her response to the Office action, the attorney or agent of record for Application X states. in a clear and conspicuous manner, that:

"Application X and Patent A were, at the time the invention of Application X was made, owned by Company Z."

Therefore, WO 03/072557 has not been disqualified as prior art. Further, non-elected, and unexamined, inventions are found in withdrawn pending claims 21-23. See the paragraph in the middle of page 7 in the final Office Action dated April 2, 2010. Additionally, Applicant's attention is directed to the assignee (i.e., Novartis), the inventors and especially, the effective filing date and the claims in US 2010/0093690, published April 15, 2010 (the published date is after April 2, 2010, the date of the final rejection in the instant application).
